## ABOUT BILLY'S LEGACY FOUNDATION:

*Billy's Legacy Foundation was established in 2007 in honor of Billy and to celebrate his memory and dedication to helping others. Before his passing, he wrote a journal entry that included the following: "I want to come back to PA and change lives." Little did he know how many lives he would touch, even today after his passing.*

*In an effort to carry on Billy's legacy, we have taken an active part in aiding in the creation of a space for young teens at Trinity. In June of 2008, the space was completed and dedicated as "The Summit" in Billy's memory. This area has been utilized as a training facility for Master's Commission students preparing for a future in mentoring young people. The Summit is preparing to host an after-school program for students ages 11 to 16 in the West Chester area. Just one example of the growing nature of the program!*

*The Billy's Legacy Foundation will continue to offer scholarships for The Summit program and others like it in an effort to assist with the financial barriers that may limit dreams and opportunities of our youth today.*

*You may find more about Billy's Legacy and see photos from last year's outing at [www.billyslegacy.org](http://www.billyslegacy.org).*
